

Building Survey

This is a detailed and comprehensive report on a property in a style that suits the property and tailored to your own needs.

It is ideally suited to: -

- Listed buildings
- Properties that are older and non traditional construction
- Properties where major renovation and extension are planned or required
- Larger properties with extensive alterations.

The Building Survey aims to: -

- Provide detail on the construction of the property
- provide detail on the characteristics of the style of construction
- Provide detail of major and minor defects present and their implications and remedies
- Help you consider what further advice is required before exchange of contracts
- Usually provides you with a valuation and rebuilding cost for the building.
